# MEDICINE SHOPPE MOMENT

Vol 1 Issue 3

Monthly Newsletter

*Caring Beyond Prescriptions*

## PHARMACY TECH DAY

Help us celebrate October 19th!

Pharmacy technicians are an integral part of our pharmacy team! Thank you **Laura, Brittany, Joy and Tara** for everything you do!

## MEDICATION SYNCHRONIZATION

Our **MEDICATION SYNCHRONIZATION** is a **free** and convenient service that allows you to pick up all your prescriptions on the same day! We automatically have your medications filled and ready for you to pick up at your scheduled time. We also reach out to your Dr. ahead of time, so you never run out of refills!

## BREAST CANCER AWARENESS

October is **Breast Cancer Awareness month!** Being proactive in this fight is crucial! The three best things you can do to detect breast cancer are: monthly breast self-exams, annual doctor's exams, and mammograms in women over 40 years of age.

## COVID-19 PFIZER BOOSTERS NOW AVAILABLE!

The Medicine Shoppe is offering the Pfizer booster shot to all persons who are eligible.\*\*

**Pharmacist Tip:** Save yourself a visit and ask us to give you your flu vaccine at the time time!

Call us today for more information about the COVID vaccines.

*\*\*specific criteria required, contact pharmacy for more information\*\**

# HALLOWEEN SAFETY

Halloween is a fun and imaginative holiday, but it is important to keep safety in mind!

From trick-or-treating to dressing up in elaborate costumes, it's fun to have a good time with your friends and family! In order to keep the good times rolling, everyone needs to make sure they stay safe.

“

## PRODUCT FOCUS: Thermal-Aid Zoo Animals

We are excited to add zoo animal heating/cooling packs to our shelves! The Thermal-Aid Zoo Animals are 100% natural therapeutic plush animals specifically designed for kids.

Thermal-Aid Zoo Animals make it easier to treat children when they need hot or cold therapeutic treatment. They can be used to help relieve pain from fever, sunburn, cold sores, earaches, flu symptoms, sprains, insect bites, headaches, sore muscles, growing pains, insomnia, and much more!

The animals can be heated in the microwave or cooled in the freezer and will keep a steady temperature for up to 45 minutes of use. They are made from a heating/cooling element composed of a specially engineered corn that is mold resistant. Thermal-Aid Bears are hand washable, which allows you to use the animal repeatedly.

Available in a variety of animals that come in both full size and mini!

Here are some tips to remember this Halloween:

- Make sure your child can see! Masks and costumes should not block vision
- If makeup is used, ensure it is non-toxic and is taken off before bedtime
- If children are allowed to go out without an adult, encourage them to stay in large groups and agree on a time that they should be back home
- If you will be out after dark, make sure to wear something bright or reflective. glow sticks are a great addition to costumes!
- Enforce the importance of looking both ways before crossing the streets with your children
- Remind them to walk, not run, from house to house and to stay on sidewalks when possible
- DRIVE SLOW! Children can unexpectedly dart out into the street. Keep your eyes peeled and your speed down more than usual
- Inspect your children's candy. Don't accept anything that isn't commercially wrapped
- If you see something, say something! Call 9-1-1 if you observe dangerous or suspicious activities

**Most importantly, have a fun, safe Halloween night!**
